PROFESSIONAL SUMMARY

React Native Developer with 3+ years of experience building, optimizing, and deploying cross-platform mobile applications for iOS and Android. Delivered 8+ production apps using React Native and TypeScript with strong expertise in REST API integration, Firebase services, real-time features, and secure payment gateway implementation. Proven ability to develop scalable mobile architectures, reusable components, and high-performance applications in agile environments.

TECHNICAL SKILLS

Mobile Development: React Native, Cross-Platform Apps (iOS & Android), React Navigation, App Store & Play Store Deployment

Core Technologies: JavaScript, TypeScript, React Hooks, Functional Components, Context API, Redux, AsyncStorage

UI Development: Responsive Layouts, Flexbox, Custom Components, Styled UI, Performance-Focused Rendering

Firebase: Authentication, Firestore, Push Notifications, Cloud Messaging (FCM), Crashlytics

Payments: Razorpay Integration, Stripe Integration, Secure Payment Flows

APIs & Backend: REST API Integration, Node.js, Express.js, Axios, JWT Authentication

Location Features: GPS Tracking, Maps Integration, Geolocation APIs

Tools: Git, GitHub, VS Code, Android Studio, Xcode, Postman

Practices: Code Review, Debugging, Performance Optimization

PROFESSIONAL EXPERIENCE

React Native Developer

Code Facts IT Solutions Pvt. Ltd.

Jan 2023 – Present

Hyderabad, India

- Developed and deployed **8+ production React Native applications** for iOS and Android platforms
- Built reusable and scalable mobile UI components using **TypeScript** and modern React patterns
- Integrated **REST APIs** for authentication, bookings, orders, and transaction workflows
- Implemented **Firebase Authentication, Firestore, and Push Notifications** for real-time features
- Integrated **Razorpay and Stripe** payment gateways with secure transaction handling
- Implemented cart systems, booking flows, checkout modules, and live order tracking features
- Optimized performance using memoization, lazy loading, and render optimization techniques
- Handled **Play Store and App Store** build generation and release processes
- Collaborated with backend, QA, and design teams in agile sprint cycles
- Reduced crash issues through structured debugging and production log analysis

KEY MOBILE APPLICATIONS

Techmate — Service Marketplace Platform: Developed a cross-platform service marketplace mobile app enabling users to book verified services and AMC packages. Implemented authentication, dynamic service flows, real-time order tracking, and Razorpay payment integration using React Native, Firebase, and REST APIs.

Bodegaa — Grocery Commerce App: Built a full-featured grocery e-commerce app with product catalog, cart, checkout, address management, and order tracking. Integrated secure payment flows and backend APIs with optimized performance and responsive UI.

Gobooze — On-Demand Liquor Delivery App: Engineered an on-demand delivery platform with product browsing, age-restricted ordering, Stripe payments, and live order status updates. Focused on scalable API integration and smooth checkout UX.

First House / BestFinder — Real Estate Platform: Created a property listing and discovery app with search filters, property details, inquiry flows, real-time chat, and push notifications using Firebase and Node.js APIs.

EDUCATION

Hindusthan Institute of Technology

Bachelor of Engineering — Electronics and Communication

2019 – 2023

Tamil Nadu, India
