SUMMARY

Mobile and Full-Stack Engineer with 2.5+ years of experience building customer-facing mobile applications, web platforms, and backend services. Delivered 6+ production applications across Android and iOS using React Native and Flutter, alongside web solutions built with React.js and TypeScript. Strong background in Node.js and Express for scalable APIs, secure payment integrations (Razorpay, Stripe), and real-time systems with Firebase. Focused on building reliable, high-performance products with strong attention to user experience and maintainability.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Dart, HTML, CSS

Mobile Platforms: React Native, Flutter (Android, iOS)

Web Development: React.js, TypeScript (TSX), Responsive UI, State Management

Backend Development: Node.js, Express.js, REST APIs

Databases: MongoDB

Mobile Commerce & Payments: Razorpay, Stripe

Cloud & Messaging: Firebase Authentication, Firestore, Push Notifications

Tools & Practices: Git, Code Reviews, Performance Optimization

PROFESSIONAL EXPERIENCE

Code Facts IT Solutions Pvt. Ltd.

Software Engineer (Mobile & Full-Stack)

Hyderabad, India

May 2023 – Present

- Developed and maintained 6+ production mobile applications using React Native and Flutter for Android and iOS platforms
- Built web applications and admin dashboards using React.js and TypeScript to support business operations and content management
- Designed and implemented RESTful backend APIs using Node.js and Express to support mobile and web clients
- Integrated mobile commerce features including Razorpay and Stripe payments, refunds, and transaction verification
- Implemented Firebase-based authentication, push notifications, and real-time data updates to improve customer engagement
- Optimized API and database performance through query tuning and caching, improving response times by up to 40%
- Collaborated with designers, QA engineers, and product stakeholders in agile teams to deliver stable and user-focused releases

KEY PROJECTS

Techmate – Service Marketplace Platform

React Native, React.js, Node.js, MongoDB

- Developed a multi-platform service marketplace enabling service discovery, bookings, and secure payments. Built backend APIs for user management, services, bookings, and transactions
- Integrated Firebase authentication, notifications, and Razorpay payments
- Live: [Website](#) | [Play Store](#) | [App Store](#)

Bodegaa – Hyperlocal Grocery Platform

React Native, React.js, Node.js

- Built a mobile commerce platform with cart, checkout, and live order tracking
- Developed APIs for order lifecycle management and integrated Razorpay payments
- Created web-based admin tools for inventory and order monitoring
- Live: [Website](#) | [Play Store](#) | [App Store](#)

Gobooze – On-Demand Liquor Delivery

React Native, Node.js, Stripe

- Developed a mobile ordering platform with secure Stripe payment workflows
- Implemented real-time order updates and optimized UI for mobile devices
- Live: [Website](#) | [Play Store](#) | [App Store](#)

First House – Real Estate Platform

React Native (TypeScript), Firebase

- Built a real estate mobile application with property listings and inquiry features
- Implemented real-time chat and notifications using Firebase services
- Live: [Play Store](#) | [App Store](#)

EDUCATION

Bachelor of Engineering in Electronics and Communication Engineering
Hindusthan Institute of Technology

2019 – 2023
Tamil Nadu, India
